Reliable and enthusiastic Engineer with hands on experience on Artificial Intelligence and Data Science. Keen to work in a team and taking on new Opportunities and Challenges.

## PROFESSIONAL EXPERIENCE

---

### Software Developer Intern

#### EddyTools Tech Solutions

July 2021 - September 2021

- Worked alongside the Software Development Team
- Developed and Delivered Computer Vision-based Application to the Client

### Business Development Intern

#### MyCaptain - The Climber

Feb 2020 - April 2020

- Worked as a Campus Ambassador of MyCaptain
- Contributed towards the promotion and sales of MyCaptain Eduventures Products across multiple campuses

## PROJECT AND CONTRIBUTIONS

---

### Climate Change Prediction using SARIMA Model

August 2021- Present

- Python-Tableau based project to analyse and predict climate change across Major Cities.
- *Status: Deployment using Flask/Django*

### Face Recognition Model for Prosopagnosia Patient

March 2021- June 2021

- Python, OpenCV based Computer Vision Project to help Prosopagnosia Patient.

## EDUCATION

---

### Bachelor of Technology in Computer Science and Engineering

Vellore Institute of Technology, Chennai

2019- Present

- CGPA 8.3 uptill 5th semester

### Senior School Certificate

G.D. Goenka Public School, Agra

2016-2018

- Completed Senior School Certificate from CBSE Board with a score of 84.1%

## SKILLS & PROFICIENCIES

---

- Python, Java, MATLAB, Tableau, R, C,C++, JavaScript & SQL
- Tensor Flow, Keras, OpenCV, IBM Cloud Services, Flask, Django
- Software Development, Data Science and Artificial Intelligence & Machine Learning

## CERTIFICATE & ACHIEVEMENT

---

### MATLAB for Data Processing and Visualization

- Certificate from MathWorks

### Deep Learning with MATLAB

- Certificate from MathWorks

### Machine Learning with MATLAB

- Certificate from MathWorks

## LANGUAGES AND INTEREST

---

- Hindi (Native) & English (Professional Proficiency)
- Gaming, Tech Gadgets and Cooking
